KING'S KORNER

I just came back from Cleveland where my wife and I attended the Rock and Roll Hall of Fame Induction Ceremony. We were there for almost a week and had a great time. Now how and what does that have to do with us. I had a lot of time to think on the ride home and reflect on the Induction Ceremony but more importantly on the whole impact art has on all types has on humanity. Well I believe "service" is a form of art, something special that impacts us and changes our lives for the better

Well a couple of things we are about to do are art in the purest sense. Our Recognition nights that highlight the youth of our community, the organizations that serve our community and our fellow lions are our recognition of the art of service

Watching and listening to the bios of the students from our two high schools is inspiring and yet life changing. They are going off to change the world, to make it better, to make it safer and just a better place to be. Not only do "We Serve", they serve all of us. Service is art.

On another fine night, we will give financial support and recognition to many fine organization. Organizations like the Overbrook School for the Blind or the Springfield Library indeed both serve and create. They create the ability of many to see, to experience things beyond their communities, to dream, to improve themselves. When folks get up to accept our financial support notice how proud they are of what they do, of what they create. Like all art, it is inspiring.

I have to pick out Lions to recognize for our awards night. It is nearly impossible because of all fine work done by so many in our Club. Bus trips, food baskets, eye glasses. or eye exams are art created by our members. When I was in Cleveland, I talked with many musicians about their creations, their art. In many ways, in fact in most ways what we create through our good deeds is the finest of art. It affects and inspires many. It is selfless and shines. We have our own museum our own Hall of Fame, it is the community we live in.
